

BCS Practical Assignment 1 - Python  
Subject: Basic Python  
Student Name: Jayesh Prashant Ghagare  
Roll Number: 24BCS042  
Practical Batch: P1  
Date of Submission: 2026-09-15

Task 1: Write a Python program to demonstrate list comprehensions and dictionaries.

Code Implementation:

```
numbers = [1, 2, 3, 4, 5]  
squares = {x: x**2 for x in numbers}  
print('Squares dictionary:', squares)
```

Output:

Squares dictionary: {1: 1, 2: 4, 3: 9, 4: 16, 5: 25}
